

OSIKOYA OLAOLUWA DAVID

Network Engineer | CCNA · CompTIA Network+

osikoyaolaoluwa2021@gmail.com | +234 9018900936 | github.com/Osikoya17 | linkedin.com/in/olaoluwa-osikoya | Nigeria

PROFESSIONAL SUMMARY

CCNA- and Network+-certified final-year Computer Engineering student who designs, configures and troubleshoots routed and switched networks in Cisco Packet Tracer and GNS3. Strong on VLAN segmentation, OSPF and EIGRP routing, VLSM address planning, ACLs and NAT/PAT. Backed by software experience in Python and JavaScript that supports scripting, REST API work and clear network documentation.

TECHNICAL SKILLS

Routing & Switching: VLANs, 802.1Q trunking, inter-VLAN routing, static routing, OSPF, EIGRP

Addressing: IPv4/IPv6, VLSM subnetting, address-space design

Security & Services: Standard & extended ACLs, NAT/PAT, DHCP, DNS, switch port security

Tools: Cisco Packet Tracer, GNS3, Cisco IOS CLI, Git, GitHub

Software: JavaScript, TypeScript, Python, React.js, Next.js, REST APIs

PROFESSIONAL EXPERIENCE

Network Support Intern — LASGMIST

Lagos, Nigeria (On-site) · May 2025 – Oct 2025

- Assisted in configuring Cisco switches and wireless access points.
- Helped resolve connectivity issues across multiple branches.
- Participated in VLAN, NTP and SNMP Configuration on Cisco devices.
- Gained hands-on experience with enterprise network troubleshooting.

Frontend Developer — Dexter Inc

Lagos, Nigeria (Hybrid) · Jan 2025 – Aug 2025

- Developed and deployed a responsive Learning Management System in Next.js and Tailwind CSS across mobile, tablet and desktop.
- Collaborated with backend developers and UI/UX designers to integrate REST APIs and resolve defects ahead of each release.

Frontend Developer — Vivmeds Pharmacy

New York, United States (Remote) · Sept 2022 – Jan 2023

- Built and shipped a responsive single-page application, sustaining a 100% customer satisfaction rating across the engagement.

Full-Stack Development Trainee — SQI College of ICT

Oyo State, Nigeria (On-site) · Aug 2020 – 2022

- Completed an intensive programme covering HTML5, CSS3, JavaScript, Python, Node.js, MongoDB and SQL fundamentals.
- Applied Git for version control and collaborative workflows, and practised object-oriented programming in Python.

NETWORKING PROJECTS

Multi-Site Enterprise Network Design (Lab) — Cisco Packet Tracer · Cisco IOS

- Designed a multi-site campus topology, segmenting departmental traffic into VLANs with 802.1Q trunk links and inter-VLAN routing.
- Planned the IPv4 address space using VLSM, allocating right-sized subnets per site and documenting the addressing scheme.
- Configured static routing alongside OSPF and EIGRP, verifying convergence and failover behaviour by taking links down.
- Applied standard and extended ACLs, NAT/PAT for outbound access, DHCP pools, DNS and switch port security.
- Diagnosed connectivity faults with ping, traceroute and Cisco IOS show commands, documenting root cause and fix.

SOFTWARE PROJECTS

Zentry — React.js · Next.js · Tailwind CSS | github.com/Osikoya17/zentry-clone

- Landing-page clone built from reusable React/Next.js components with Tailwind CSS and responsive layouts.

Me-Tube — *TypeScript · React.js · REST API* / github.com/Osikoya17/me-tube

- YouTube-inspired video platform integrating REST APIs for asynchronous data fetching, in type-safe TypeScript.

CERTIFICATIONS

Cisco Certified Network Associate (CCNA) — Cisco · 2025

CompTIA Network+ — CompTIA · 2025

EDUCATION

BSc Computer Engineering — Obafemi Awolowo University · 2020 – Present (Final year)

West African Senior School Certificate — Rhema Chapel International College · 2013 – 2019
